We provide investment to support the growth of businesses

We are expert investors in the following areas:

Climate

At least 30 per cent of our total new commitments will be in climate finance.

We partner with businesses that are at the forefront of innovations to mitigate climate change, increase climate resilience and adaptation, and support the circular economy.

Infrastructure

We invest in crucial infrastructure that helps to form the building blocks for modern and thriving economies and societies.

Our investments in climate-smart digital and physical infrastructure bring people and businesses closer together, strengthen regional trade and enable the emergence of new value chains.

Digital transformation

We are passionate about the vast potential of the digital economy as a driver of growth, inclusion and innovation.

We invest in businesses and entrepreneurs who are using digitalisation to leapfrog development, improve access to services and unlock new markets and opportunities.

Diversity and inclusion

We are proud to be at the forefront of gender-smart investing.
